Re: SUPPORT AB 690

Dear Speaker Pro Tempore Campos:

I write to support you Bill, AB 690. As you have correctly determined, joblessness and the critical need to create employment in California is and will be our most pressing challenge – using tax increment financing to put California back to work is an innovative approach worthy of implementation as soon as practical. Accordingly, please accept our full support for AB 690 and don't hesitate to contact us if you need our assistance on this or any other issue.

Sincerely,

Diane Martinez
President
